

City of Redondo Beach

(completed July 2012)

#MR312.14 - Inglewood Ave at Manhattan Beach Blvd

This improvement installed east bound right-turn arrows from north bound Inglewood Bl. where there hadn't been any before. The two traffic signal heads on both corners of the intersection were upgraded to 5-section heads, versus the previous 3-section heads. This was a signal and/or intersection improvement to a roadway that benefits the I-405 freeway.
