

City of Gardena

(completed January 2014)

#MR312.19 - Artesia Blvd at Western Ave -

This project added west bound dual left-turn lanes on the east approach of the intersection in the cities of Gardena & Torrance. An additional lane was added to improve the flow of traffic (west bound Artesia Blvd carries traffic from the I-405.) This project is a signal & intersection improvement within 1 mile of SR-91, benefitting the I-405 freeway.
