

**George Wentz** serves as Vice President of HR Green California, Inc.'s Governmental Services Business Line. This business line offers a comprehensive suite of municipal management, engineering, and building safety services to help local agencies function more effectively and efficiently. George brings more than 40 years of administrative, management, and local government related experience, focused on delivering consulting support and leveraging emerging technologies to public agencies.

Based in Southern California, George lived on the Palos Verdes Peninsula for nearly 15 years and has worked with many Peninsula and South Bay cities in various capacities – so he understands the uniqueness of each city. He is a registered civil engineer and has served as City Manager, Assistant City Manager, Public Works Director, City Engineer, Building Official, Planning Director, Traffic Engineer, and Economic Development Manager to numerous jurisdictions.
