RE: Strategic Plan Funding Commitment

Dear Scot and Ann,

The South Bay Cities Council of Governments (SBCCOG) is excited to work with Southern California Edison and Southern California Gas Company on the Strategic Plan Benchmarking and Energy Efficiency Municipal Project Identification project. This work will accelerate benchmarking for the South Bay City Partnership members' municipal facilities and help identify energy efficiency savings opportunities.

The SBCCOG is a joint powers authority of 16 cities and the County of Los Angeles. The SBCCOG Board of Directors, which consists of elected representatives from each of the member cities and County, is committed to implementing this project fully within the 12-month period of the program and the approved budget of \$82,312. The Board is also committed to directing SBCCOG staff to work with member cities and you, our utility partners, along with assistance of an energy engineer to complete this important work.

As you are aware, the SBCCOG has experience and the support of our cities for benchmarking, identifying, and assisting our members in implementing energy efficiency projects. This project will serve to enhance and build on the work that has been done and provide support to our members to continue to obtain higher kWh and therm savings.

Sincerely,

Kurt Weideman, SBCCOG Chair
Councilmember, City of Torrance
