

South Bay Cities Council of Governments

November 14, 2016

TO: SBCCOG Steering Committee

FROM: Jacki Bacharach, SBCCOG Executive Director

SUBJECT: Updated Job Classifications

Adherence to Strategic Plan:

Goal D: Organizational Stability. Be a high performing organization with a clear path to long-term financial health, staffing continuity, and sustained board commitment.

BACKGROUND

The South Bay Cities Council of Governments (SBCCOG) staff has determined a need to address two job classification issues: revision of the Environmental Services Analyst I compensation and the creation of a new Intern employee job category & compensation.

Environmental Services Analyst I Compensation:

The U.S. Department of Labor set new standard salary levels at the 40th percentile of weekly earnings for full-time salaried workers raising the threshold to \$47,476 per year. This new standard goes into effect December 1, 2016. While all of the current SBCCOG employees' salaries are in compliance with this revision, the Environmental Services Analyst I tier levels are out of date. To address the new standards, staff is proposing the following revisions:

From:

Annual Compensation

- Tier 1: 42,000 – 47,000
- Tier 2: 47,001 – 52,000
- Tier 3: 52,001 – 57,000

To:

Annual Compensation

- Tier 1: 47,500 – 50,500
- Tier 2: 50,501 – 53,500
- Tier 3: 53,501 – 57,000

All other positions and corresponding salary tiers would remain the same.

Intern Employee Job Category & Compensation:

The SBCCOG is known for its innovative programs and projects. Not only is our organization successful in acquiring grants, we are continually contacted to apply or partner with other organizations on new innovative projects. Very often the SBCCOG is also sought after to implement portions of grants that other organizations have obtained. This fluid environment lends itself to the work of interns. Many of the grants are “one time” for a short period time and require areas of specific study or technical expertise. The SBCCOG staff have found that many students are looking for these types of opportunities to enhance their education as well as their

resumes and interns can be helpful for the SBCCOG as well. In order to address this growing interest, staff is recommending creating an Intern position.

The position description (attached) has been written in general terms to address various assignments. The job functions include assisting with general programs, projects, research, field work, workshops, marketing, and outreach; writing content for web site, marketing materials, and social media; helping to develop reports; analyzing, tracking, monitoring, and inputting data; assisting in grant writing; helping with general program or office support as needed such as answering general inquiries.

Recommended compensation is \$15.00 - \$25.00 per hour.

RECOMMENDATION

Steering Committee recommends SBCCOG Board approve:

- A. Restructure the Environmental Services Analyst I salary tiers to meet U.S. Department of Labor new standard salary levels as follows:
 - Annual Compensation
 - Tier 1: 47,500 – 50,500
 - Tier 2: 50,501 – 53,500
 - Tier 3: 53,501 – 57,000

- B. Creation of new Intern employee job category and compensation as detailed in the attachment.

**SOUTH BAY CITIES COUNCIL OF GOVERNMENTS
JOB DESCRIPTION**

INTERN
