

# South Bay Cities Council of Governments

June 24, 2021

TO: SBCCOG Board of Directors

FROM: SBCCOG Steering Committee

SUBJECT: South Bay Strategic Projects List for Metro Short Range Transportation Plan

## Adherence to Strategic Plan:

*Goal A: Environment, Transportation, and Economic Development.* Facilitate, implement, and/or educate members and others about environmental, transportation, and economic development programs that benefit the South Bay.

## Background

At the beginning of May 2021, Metro asked each subregion to assist their staff to update Metro's Short-Range Transportation Plan Strategic Project List (SPL). The South Bay list is due by June 30, 2021.

Metro defined the SPL as including transportation projects or approved programs that could potentially be implemented within the next 5–10-year timeframe but that are not fully funded or programmed in Metro's existing funding programs. To be eligible to be included on the SPL, a project or program must be a major unfunded project or program. Funding in the SRTP is for capital expenditures only, excluding operations and maintenance, and it must improve mobility, reduce congestion, and have regional significance.

SBCCOG staff prepared a draft of South Bay's SPL and requested South Bay agency staff to provide additional projects and corrections. Attachment A includes major freeway projects that have been identified, but are not yet fully funded in the Measure R South Bay Highway Program (SBHP) or Measure M Multi-Year Subregional Programs arterial projects in the SBHP and or MSPs, the imminent Measure R Decennial Transit Transfer Program projects, and city project submissions.

## RECOMMENDATION

Recommend Board approval of the South Bay Strategic Projects List update and direct staff to transmit the list of projects to Metro for inclusion in the Metro Short Range Transportation Plan.
