

The South Bay Cities Council of Governments

invites

South Bay Public Works and Planning Staff

to a special workshop

How the Legislature Changed the Way We Do Business: SB 743 & Other New Laws

Thursday, December 4, 2014

1:00 pm – 3:30 pm

SBCCOG Office

20285 S. Western Avenue, Suite 100

Torrance, CA 90501

Expert Presenters Include:

Ron Milam, Principal with Fehr & Peers Transportation Consultants

Will lead the session on Senate Bill 743, the recent legislation that will fundamentally change transportation impact analysis in California. Notably, this bill removes traffic level of service as a basis for determining transportation impacts in a CEQA document. Ron will discuss the new set of draft transportation metrics, and the ramifications for a jurisdiction's own planning processes, as well as the CEQA review of development projects. Ample time for question and answer will be provided.

Michael Kennedy, Associate with Fehr & Peers

Will present recommended approaches for addressing SB 743 in the context of the South Bay in the interim phase before guidelines have officially been adopted.

Jeff Kiernan, League of California Cities

Will summarize other pertinent state legislation.
