

How Long Until Our Local Streets & Roads System Crumbles?

Webinar

Wednesday, October 26, 2016

2:00 – 3:00 p.m.

The results are in and once again the biennial Local Streets and Roads Needs Assessment has concluded that California's local system remains on the brink of a rapid, downward spiral if maintenance funding shortfalls are not addressed.

Cities, counties and transportation officials are invited to a briefing on this crucial research that will be released on Oct 25.

This free webinar will cover the report's findings, what they mean for your community, and how you can help get the word out about our funding shortfall. The 2016 update surveyed all of California's 482 cities and 58 counties, capturing data from more than 99 percent of the state's local streets and roads.

This webinar is free for League and CSAC/CEAC members and partners. Please only register for one line per entity. We have a limit of 500 lines.

Please register at <http://www.cacities.org/events> no later than 5 p.m. on Oct. 19. Webinar log-in information and background materials will be sent by Oct. 25.

For registration questions, please contact Megan Dunn at mdunn@cacities.org. For all other questions related to the streets and roads report, contact Meghan McKelvey at mmckelvey@cacities.org.
