In association with

Preparing California for Autonomous Vehicles

Recently, we made a major step forward for autonomous technology in California. Our state's Office of Administrative Law approved regulations that will allow permits for fully autonomous vehicles (AV) without drivers to test on public roads for the first time. **What's next? Find out by attending the next ITS California Workshop "Preparing California for Autonomous Vehicles"**. We have invited experts to discuss topics from policy, rules, and regulations to societal impacts, and recent AV deployment experiences.

ITS CA member and public agency cost = \$75 (Includes continental breakfast and lunch)
Non-members = \$100 (includes continental breakfast and lunch)
