# Our Employment Model

*Pallet's mission as a cause-driven, second-chance employer.*

# Our People

*People are our bottom line, and we invest in human capital to maximize the potential of our employees and the communities they serve.*

All employees who build Pallet shelters for the homeless are formerly homeless, addicted, or incarcerated themselves, and have found stability through meaningful employment, building shelters for the more than half a million people across the United States who are experiencing homelessness.

We're building a company where we invest in people, not just profits. Where all people, in all circumstances, may have the shelter that meets the needs of their families and communities.

*“We want the world to see that people’s futures are defined by their potential, not their past history.”* - Amy King, Pallet Founder and CEO

# More Than a Career

*For our employees who were formerly homeless, addicted, or incarcerated themselves, a career building shelters at Pallet is more than a paycheck — it's a life of stability, learning, and a community that cares for and supports their personal and professional growth. Employment at Pallet includes job training, support services, and a long list of other benefits.*

# Our Employee Programs:

## Manufacturing Training

We're builders at heart — whether we're building a shelter or someone's future — and train our employees with the skills they need to be successful. These skills apply not only to building shelters at Pallet, but any building in the construction industry.

## Life Skills Training

A life of stability requires more than a career and a paycheck. That's why Pallet brings experts to its manufacturing headquarters each month to advise its employees on life skills, such as how to open a bank account or obtain an identification card.

## Personal Support Services

Sometimes life happens and we all hit a speed bump — that's why the team at Pallet is here to provide support, and help its employees through their personal challenges.
