

What is grandPad?

grandPad is a simple, smart, and secure tablet for seniors that effortlessly connects seniors to their friends and family with a touch of a button. The user experience on the grandPad is a breeze – seniors can view family photos, make phone calls and video calls, send voice emails, check the weather, play games, and more without worry.

A grandPad Subscription Includes:

- LTE Internet connectivity
- The grandPad simple senior tablet
- Videocalling, emailing, games, music, and more
- Device insurance against damage and theft
- U.S. based customer support

What is Uber?

Uber is a safe, reliable, and affordable ride at the push of a button. Senior citizens often struggle with transportation, therefore, Uber has products geared toward seniors. uberASSIST is for passengers that may need extra assistance getting into the vehicle and uberWAV is for passengers that require wheelchair accessibility.

Uber driver-partners go through a screening process which includes a driving and criminal history check (covering county, federal, and multi-state databases). Every trip is rated on a 1-5 scale which keeps the highest performing drivers on the platform and ensures the safety of passengers.

What is Uber on grandPad?

Many seniors would like to use Uber but do not have a smartphone to do so. Uber on grandPad is a simplified version of the app that allows seniors to order a ride from a list of pre-set destinations that family members, caregivers, and grandPad customer service representatives can help set up.

Provide Safe, Convenient, and Affordable Transportation to Seniors

Benefits of Uber on grandPad

- Simple interface
- Pre-set locations
- Text message updates to family members
- Ability to call driver
- Always connected LTE internet connectivity
- Portable tablet with enlarged fonts and buttons
- Includes customer support

The Simplest Way to Use Uber

Pre-defined Destinations

Interface is Senior Friendly

Uber + grandPad + South Bay

Uber + grandPad would like to partner with the South Bay to bring safer, more convenient, and more affordable transportation to the seniors in your community.

We would like to propose a pilot program where 500+ seniors will use grandPad to order subsidized Uber rides to their doctor, pharmacy, etc.

This partnership would give seniors in the South Bay their independence back by being able to order a ride at the push of a button. We believe this partnership will result in seniors being less isolated and living longer/happier lives.

"This is the best form of transportation that I know of. Children can have their parents take an Uber, know that they'll be taken care of, and get updates throughout the process. It's just wonderful." - Margaret, 82
