*Disclaimer: Surveys and equipment installations are available on a first-come, first-served basis until program funding is exhausted. West Basin retains the right to approve or deny facilities a survey or equipment installation. Actual equipment may vary.

The Program

West Basin's Cash for Kitchens Program provides FREE water-use surveys for public institutional kitchen facilities. Beginning in Fall 2017, facilities that have completed a survey may be eligible for high-efficiency equipment installed by West Basin at no charge.

Who is Eligible?

Public "Institutional" kitchen facilities include:

- Schools
- Hospitals
- Fire Stations
- Community Centers
- City- and County-owned Facilities
- Courthouses
- Other public or government facilities that utilize kitchen equipment

Facilities must complete a water-use survey to be eligible for the following kitchen equipment:

- Pre-Rinse Spray Valves
- Faucet Flow Restrictors
- Air-Cooled Ice Machines

How it Works

Step 1: For facilities located in the South Bay (see reverse for map), contact the South Bay Environmental Services Center to confirm program eligibility and to schedule an initial water-use survey.

Step 2: The facility will receive a free summary report of the survey findings and any recommended steps to reduce water and energy consumption. If the facility is eligible for free equipment, West Basin will contact the site to schedule an installation date beginning in Fall 2017.
