

# South Bay Safe Parking Survey

There is no denying this fact; Homelessness in LA County has risen in the past 5 years. Despite a 10% decrease in vehicular homelessness in the SPA 8 region, there still remains a huge amount of people who live in their vehicles. Approximately 40% (1,846) of PEH live in their cars, SUV's, and RV's on any given night the South Bay. In Hawthorne, overall vehicular homelessness rose by 78% since 2019.
