

Hillary Theyer Bio

Hillary Theyer has worked for the City of Torrance for 15 years, and in public libraries since the middle of high school. She has been a children's librarian, managed a branch library, supervised public services, and is now the City Librarian. She has her Master of Library Science from UCLA, and Master of Public Administration from CSULB. She is a strong believer in the power of a public library to be the "third place" in a neighborhood, and serve all segments of a community.
