

## **Bio for Josh Kornoff**

Josh Kornoff is the Chief Technical Officer at Drone 55, a UAS services company in Los Angeles, California. Drone 55 has developed drone data acquisition solutions for leading companies in the surveying, mapping, filmmaking, insurance, and industrial inspection industries.

Josh has leveraged his 15 years of technical engineering experience as a Hollywood special effects supervisor to aid in his success within this new and exciting realm of commercial unmanned vehicles. Each of his completed UAS projects required a wide array of hardware, software, and scientific hurdles to overcome, which is a challenge he enjoys.

Josh maintains a private pilot license with high performance and complex aircraft ratings and has logged over 600 successful UAV flight operations.
